## HIS DREAM FADED

Soldier's View of Pure Delight  
Abruptly Dissipated.

Officer of the Day Had His Own  
Ideas Concerning the Wins  
Cellar and the American  
Fighting Man.

How would you like to have six prisoners, whom you were guarding and who apparently had no means of escape, suddenly disappear from sight, and to all appearances from the face of the earth?

Such was the experience of a Seventh infantryman on guard not long ago.

According to the guard's own story, he was in charge of six prisoners who were digging a hole near the rear of the Liberty hall at Andernach. On three sides were walls of such height that it would be impossible for the prisoners to scale them. On the remaining side was the guard, bayonet fixed and ever on the alert for disorders among his charges.

"For an instant," said the guard, "I glanced away from my prisoners. When I again looked in their direction they were gone. For a few minutes I was almost paralyzed. I began to think I had lost my mind or that nightly recreation in the wirtschafts had permanently affected my eyesight. I knew they couldn't get over the walls, I was sure that they had not passed me, and yet in the fraction of a second they had disappeared from sight."

Visions of serving the sentences of the six fugitives flashed through the mind of the guard. Then he decided that some action must be taken, and taken immediately. He rushed to the edge of the hole and peered into its depths. At first he found no clew to the mystery. Then in one corner of the excavation he saw a few loose bricks and an opening into what seemed to be an underground passageway. With one jump he reached this opening, and shoving his gun and bayonet ahead of him, he crowded his way along a narrow brick-lined tunnel. A few steps along this and he found himself in a large cellar, amply stocked with ancient vintages from the vineyards along the Rhine.

Seated on the wine casks, and evidently very much at ease, sat the six prisoners, smiling at the discomfiture of their guardian.

With his charges once more in hand the mind of the infantryman instantly formulated a plan. Hurrying the "willful six" back into the daylight, he began to brick up the entrance to the discovery with a plan for future reference.

Just then the officer of the day came on the scene.

Result—The secret passageway and wine cellar came into official notice, was ordered "out of bounds to the A. E. F." and Seventh Infantry dreams of a private wine cellar went the way of the goof and dodo.—From The Watch on the Rhine, Andernach, Germany.

#### His Suggestion.

"The majority of people in and around Wayoverbehind declined to set their clocks ahead, and are still going by old time," said Farmer Hornbeak. "It seems to me that a government commission should be appointed to investigate the matter. Those of us who are outraged by the refusal of those moss-grown procrastinators to act in harmony with us will feel that we are going to be avenged, and the commission will move so slowly that it will not be ready to commence to do anything until after the time has been changed back again, and then there will be no cause for action. Accordingly those nonprogressive but entirely worthy persons will not be disturbed, and the rest of us will have the happy consciousness of having done our whole duty when we snouted into their affairs.—Kansas City Star.

#### Cigarette Rings.

Aristocratic women in London are wearing gem cigarette holders. It's the very latest wrinkle. The rings are advertised in British magazines as made by his majesty's jeweler. You have to be aristocratic or plutocratic to wear one, because they cost from \$250 to \$300 apiece.

The rings are gold or platinum, set with precious stones. You press a tiny catch on the side and up springs a dainty metal finger with a cigaret at the end through which you insert your cigarette and then puff away. The women wear the rings on their forefingers. The holder, according to the advertisements, prevents nicotine from coloring the fingers. So far the rings haven't reached this country, but American jewelers expect the fad will soon appear on this side of the water.

#### But She Brought Him.

"Dorah," said the literary woman, "I wish you would go down to the library and bring me 'Flavius Josephus.'"

The new girl left the room and hastened to execute the commission.

Presently a terrific noise was heard and Dorah pushed the door open with her foot a moment later, dragging in by the collar a reluctant Newfoundland dog.

"Here he is, Mrs. Dinnis," she said, "but ye ought not to have sint me for 'im. It's a man's job. The brute thrived to bite me an' I had to fight 'im 't'ry f'ut o' the way."

4,000 "Y and E" Products  
Efficiency, Desk, Fire-Wall Steel  
Cabinets, "Y and E" Wood Cabinets,  
Record Filing Safes, Etc.

The biggest thing about a "Y and E" Fire-Wall Steel Filing Cabinet is not necessarily the "Built Like a Safe" construction—not the double steel walls, nor the asbestos interlining, nor the dead air chambers at the top, bottom, front, sides and back. It is not the safety Drawer Latches, nor "Y and E" Frictionless Rollers.

The biggest feature of all is the "Y and E" System. "Y and E" offers you efficient system planning service without charge. It is this service which transforms your office equipment from so much wood and metal into a vital working part of your business.

"Y and E" Service is Free

A phone call or letter from you will bring a system planning expert who is competent to work out a modern and efficient system which will save money to your business. Write for free booklet "Vertical Filing Down to Date."

## Mabel McKinley—Niece of the Late President of the United States—Takes Nuxated Iron for Health and Strength And Says She Regards It as The Ideal Tonic For All Weak, Run-Down Nervous Women

Dr. George H. Baker, Formerly Physician and Surgeon Monmouth Memorial Hospital of New Jersey, Explains Why Iron Is One of the GREATEST OF ALL STRENGTH BUILDERS

Says: He has found nothing in his experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron.

Every woman who wishes to possess health, strength and beauty, should carefully read the statement of Miss McKinley who, after her personal use of Nuxated Iron tells of the results she obtained.

Miss McKinley says: "While I had often heard of Nuxated Iron, I must admit that prior to using it myself I had no idea of its remarkable value for building up the health and strength."

"Following the strain imposed by months of the most exacting work singing for the soldiers in the various army encampments, together with my social engagements and charitable pursuits, I found myself in such a weakened, run-down state that I feared a complete collapse."

"It seemed utterly impossible for me to drop everything and go away for a complete rest, but I realized that as my condition was serious I must either do this or find something that would actually rebuild my wearing strength and enable me to continue my activities."

"I had always been prejudiced against tonic preparations which, for the most part, I found only acted as a temporary stimulant and usually left me worse off than ever. However, when my own family physician insistently recommended that I give a fair trial to Nuxated Iron, I consented to begin its use, with a result that after a few days the weakness and exhaustion from which I suffered began to be replaced by a feeling of renewed strength and vitality. In less than three weeks' time my whole system was tingling with energy and power and I was overjoyed to find that I was once more in superb physical condition."

"Nuxated Iron has accomplished so much for me that I regard it as the ideal tonic for weak, run-down women. As a strength, health and blood-builder, I am convinced Nuxated Iron has no equal."

"In commenting on Miss McKinley's statement regarding the efficacy of Nuxated Iron, Dr. Ferdinand King, New York

Miss McKinley has a voice of unusual quality and it was following her work singing for the soldiers that she became weakened and run-down and had recourse to Nuxated Iron. Once more in superb physical condition, Miss McKinley says she is convinced that Nuxated Iron has no equal as a Strength, Health and Blood-Builder.

Physician and Medical Author, says: "It is my opinion that in practically nine times out of ten, unstrung nerves and failing strength and vitality are due to deficiency of iron in the blood. Many a woman who is run-down, nervous and who quickly tires out, suffers from iron deficiency and does not know it. I am convinced that there are thousands of such women who, simply by taking Nuxated Iron, might readily build up their red-blooded corpuscles, increase their physical energy and get themselves back to vibrant and vigorous health. By enriching the blood and increasing its oxygen carrying power, Nuxated Iron will often transform the flabby flesh, toneless features, and pallid cheeks of nervous, run-down women into a glow of health, and make them look younger within a surprisingly short time."

Among other physicians asked for an opinion was Dr. George H. Baker, formerly Physician and Surgeon Monmouth Memorial Hospital, New Jersey, who says: "What women need to put roses in their cheeks and the springtime of life into their step is not cosmetics or stimulating drugs but plenty of rich, pure blood. Without it no woman can do credit to herself or to her work. Iron is one of the greatest of all strength and blood-builders, and I have found nothing in my experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron."

"Manufactured from Nuxated Iron which is recommended by physicians as such a potent remedy for iron deficiency, it is easily assimilated, does not irritate the bowels, and does not upset the stomach. The most delicate and nervous women can take it with perfect safety. It is dispensed in this city by all good druggists."
